Message From The Founders

Dear Students,

We, Mr. S.P. Saju Bhaskar, and Ms. Chithra Saju are immensely grateful to be able to reach you through this Texila American University (TAU) Program Brochure. It has been an eventful journey thus far and will continue to only get more exciting further. We are proud of all your achievements and involvement in the activities thus far.

Texila has seen several students through the years and what has never failed us is the memories each cohort leaves behind. We are blessed with students who possess priceless talents and are passionate about their dreams. That is why TAU is fully focused on nurturing every student so that each individual student will be able to contribute to society in any possible way.

We commend the students for adhering to the campus culture, accepting fellow students with warmth, and working tirelessly towards their goals. These are the driving factors that propel Texila towards progress. Our students have never failed to wow us with their work and dedication in all the opportunities that knock on their door. Texila will keep shaping its students towards excellence and send them as the finest professionals into society.

We once again take this opportunity to welcome our students and freshmen batch into the portals of this great institution and look forward to their individual contribution towards the growth in their careers as well as in Texila.

Best Wishes!

**President and Executive Vice President,
Texila American University.**

About Texila

Texila American University (TAU) stands as a highly coveted educational institution, renowned for its cutting-edge facilities and a contemporary curriculum meticulously crafted to shape top-tier professionals. Adhering to global standards, we are dedicated to equipping our students with the knowledge and mentorship essential to thrive in the fiercely competitive global landscape. Our rigorous curriculum and programs seamlessly integrate theoretical expertise with hands-on experiences, cultivating the leaders of the future.

At TAU, we believe that adaptation and change are the key to competing in today's dynamic work environment. We prepare our students to think globally and act locally. With guidance from our internationally experienced faculty, our students leave TAU with all the qualities to succeed in their chosen fields.

Master of
BUSINESS
ADMINISTRATION

Program **AIMS** and **OBJECTIVES**:

MBA Program at TAU incorporates various management skills to the students in a more interactive manner. The program will equip the students to face the business environment with lot of confidence and also will kindle the underlying skills of the students to face the global business challenges.

1. Helps students to implement the best decisions in critical business situations.
2. The students will develop the best practices in operating small businesses and non-profit organization.
3. The students will be able to foster sound fiscal practices through analysis of financial statements and establishment of accounting procedures to ensure effective managerial decision making.
4. Case studies and Article reviews help the students to develop their learning ability by enhancing their knowledge.
5. Capstone projects and Research work would enhance the student's knowledge regarding the Realtime scenarios of business across the globe.

DOCTOR OF
BUSINESS
ADMINISTRATION

Program Aim

The program aims for academic excellence, and it is blended specifically to educate research scholars in the concepts and techniques needed to understand a range of business disciplines and to conduct research on issues arising in professional business practice.

Program Objective

Advanced Leadership Skills: Equip students with the advanced knowledge and skills necessary to lead and manage organizations effectively, fostering strategic thinking, ethical decision-making, and innovation.

- **Research Excellence:** Develop students' research capabilities, enabling them to contribute to the body of knowledge in business administration through rigorous scholarly inquiry and the production of high-quality research outputs.
- **Applied Business Knowledge:** Enhance students' understanding of advanced business concepts, theories, and practices, enabling them to apply their knowledge in real-world organizational settings and address complex business challenges.
- **Critical Thinking and Problem-Solving:** Foster students' ability to think critically, analyze complex problems, and develop innovative solutions, preparing them to tackle the dynamic and rapidly changing business environment.
- **Professional Development:** Cultivate a commitment to continuous learning and professional growth, equipping students with the skills and mindset necessary to adapt to evolving business trends and excel in their careers.
- **Collaborative Engagement:** Encourage collaborative learning and the exchange of ideas among students, faculty, and industry professionals, fostering a supportive and intellectually stimulating community that promotes interdisciplinary perspectives and networking opportunities.
- **Impactful Contributions:** Empower students to make meaningful contributions to organizational and societal advancement through their research, leadership, and expertise, driving positive change and influencing business practices at a global level.

ELIGIBILITY:

- Any master degree & 3+ years of managerial experience
(or)
- Master's degree (1 year) in the same discipline or equivalent stream from a recognized university + 10 years of work experience with last 3 years of work experience in relevant field.
