# PhD in **NURSING**

# Message from The Founders

Dear Students,

We, Mr. S.P. Saju Bhaskar, and Ms. Chithra Saju are immensely grateful to be able to reach you through another edition of the Texila American University (TAU) Student Handbook. It has been an eventful journey thus far and will continue to only get more exciting further. We are proud of all your achievements and involvement in the activities thus far.

Texila has seen several students through the years and what has never failed us is the memories each cohort leaves behind. We are blessed with students who possess priceless talents and are passionate about their dreams. That is why TAU is fully focused on nurturing every student so that each individual student will be able to contribute to society in any possible way.

We commend the students for adhering to the campus culture, accepting fellow students with warmth, and working tirelessly towards their goals. These are the driving factors that propel Texila towards progress. Our students have never failed to wow us with their work and dedication in all the opportunities that knock on their door. Texila will keep shaping its students towards excellence and send them as the finest professionals into society.

We once again take this opportunity to welcome our students and freshmen batch into the portals of this great institution and look forward to their individual contribution towards the growth in their careers as well as in Texila.

Best Wishes!

**President and Executive Vice President,  
Texila American University.**

# About Texila

**Texila American University (TAU)** stands as a highly coveted educational institution, renowned for its cutting-edge facilities and a contemporary curriculum meticulously crafted to shape top-tier professionals. Adhering to global standards, we are dedicated to equipping our students with the knowledge and mentorship essential to thrive in the fiercely competitive global landscape. Our rigorous curriculum and programs seamlessly integrate theoretical expertise with hands-on experiences, cultivating the leaders of the future.

At TAU, we believe that adaptation and change are the key to competing in today's dynamic work environment. We prepare our students to think globally and act locally. With guidance from our internationally experienced faculty, our students leave TAU with all the qualities to succeed in their chosen fields.

# Overview of PhD in Nursing

**Texila American University's PhD in Nursing** offers the same exceptional standards as our traditional programs, blending flexible online learning with practical experiences. This program is designed to prepare you for a successful and impactful career in the nursing profession. Earning your PhD in Nursing online opens doors to advanced opportunities across the healthcare sector.

The primary objective of the Doctor of Philosophy (PhD) in Nursing program is to develop highly skilled professionals with deep expertise and leadership capabilities. Graduates will be equipped to influence community health initiatives, lead primary healthcare planning and implementation, and contribute to the improvement of healthcare services globally. TAU's PhD scholars are prepared to engage in groundbreaking scientific research, driving innovation and progress in the field of nursing.
